

Calling all stakeholders! You are invited and encouraged to go to MySchool Info and look at School Report Cards and engage with your school in their School Improvement Process.

The School Report Card is a tool for all stakeholders to become informed in order to identify strengths and areas of need for their school. School Improvement Plans, built on a Plan-Do-Check cycle, rely on stakeholder input.

Your Invitation to Connect

What:		
The online Report Card provides information about each school, district and the state, including performance, growth, discipline, expenditures, teacher quality and more.		<div>Report Card</div>
When:
